October 31, 2000

*Mr. Sidney J. Brandon, Jr.
P.O. Box 158
Dundas, Virginia 23938*

Dear Mr. Brandon:

As requested, soil evaluations were reviewed of property located in Brunswick County on route 644. This parcel of land is to be known as Meredithville Estates. Evaluation was performed by Mark Sadler, Environmental Health Specialist for Brunswick County Health Department.

Upon evaluation it was determined that the following lots are suitable for the installation of a sewage disposal system to accommodate a 3-bedroom home

Lots 1,2,3,4,5,6,7,8,9,10,11,12,13, and 14.

Please be advised of the following:

- 1. Each lot will be served by an individual well*
- 2. A pump may be required on some of the lots contingent upon final house location.*
- 3. Lots will have to be bush-hogged before final permits can be drawn by the health department*

Lots are approved as submitted on subdivision plans. Local ordinance also requires that a building permit be issued before any construction is started. If this department can be of further assistance please do not hesitate to contact us.

Sincerely,

Mark Sadler

Environmental Health Specialist

Ms/gmn
